RECIPROCITY AGREEMENT (effective Fall 2005)

Washington’s Community and Technical Colleges (CTC’s) offer reciprocity to students transferring within the CTC system. Students who have fulfilled a specific course requirement or entire areas of their AAS transfer degree requirements at one college—for example, Communication Skills, Quantitative Skills or Distribution Area requirements—will be considered to have met those same requirements if they transfer to another Washington CTC. Students must initiate the review process and must be prepared to provide all necessary documentation to WCC. Students are subject to WCC’s catalog agreement and must complete the minimum number of credits required for a WCC degree. For complete information, students should contact an advisor in the Entry & Advising Center.
