

Online + Evening Associate in Arts and Sciences Degree Winter Quarter 2020 - Student Participation Agreement

I elect to enroll at Whatcom Community College to complete an Associate in Arts and Sciences degree. By committing to this evening program and this specific set of courses, I will be able to complete my degree in three years, provided I complete all of the courses as listed.

- I have the option to shorten the time required to complete my degree by:
 - Transferring in credits from another institution.
 - Taking an additional course each quarter.
 - Taking courses over the summer.
- I understand that if I need to take pre-college courses in either math or English, it may take longer to complete my degree.
- The college assures I will have access to the course published in the quarter by quarter sequence or an equivalent substitute. This assurance applies only to courses in each designated quarter.

I agree to:

- Review the online/evening options information at whatcom.edu/online-evening and read through the frequently asked questions (FAQs).
- Work with my advisor to create an education and transfer plan.
- Organize my schedule to be available for classes on Tuesday and Thursday evenings.
- Utilize the college's free support resources including the math center and the writing center as needed.
